

## ASSURED PROTECTION

Business assets – from buildings to corporate officers – create worth for any enterprise. Protecting them from outside threats is Assured Protection’s mission.

Our asset protection personnel can protect offices, warehouses, storage facilities, construction sites and more. Whether you’re looking for state-certified unarmed personnel to patrol an apartment building or off duty police officers to guard an A-Class office building, we can do it.

In addition, Assured Protection can also provide security for high-profile individuals in the corporate, entertainment and professional sports categories. Investigation, surveillance, counter surveillance, and detective services are also available.

Assured Protection’s personnel receive highly specialized training that combines the accountability of law enforcement with the proven track record of military tactics. We anticipate a problem before it happens, and solve it using less lethal tactics.

If you have assets or personnel in need of security services, contact Assured Protection. Your security is our priority.

## **WORLD SECURITY CONSULTANTS**

If you conduct business in foreign countries, security is as vital to your success as your marketing plan.

World Security Consultants – a member of the SOS Group – provides top-quality personnel and asset protection anywhere in the world. We are familiar with environments that can be potentially dangerous and have worked in Iraq, Africa, South America and Russia.

Operating outside the boundaries of the United States means employing different tactics and strategies. World Security Consultants arrives at our clients' sites fully prepared and trained to spot potential trouble before it begins. This technique allows us to use less lethal actions when trouble happens.

World Security Consultants – taking care of security so you can take care of business.

## **SPECIAL OPERATIONS TRAINING ACADEMY**

Training is an essential element of success for any business – it's how the good get better and the better become the best.

The SOS Group has created the Special Operations Training Academy to serve as a place where your personnel can sharpen existing skills and learn new techniques.

The SOTA is staffed by law enforcement and armed services veterans with years of experience earned in areas of operation around the world. Attendees will receive the perfect blend of field experience and formal knowledge.

SOTA offers a variety of courses that can accommodate virtually any sized group – one on one training is also available. Students at SOTA learn the latest techniques and handle cutting edge weaponry and explosives – all under the watchful eyes of our instructors.

You've sent your sales team for training and watched your profits soar and business grow – now send your security team for training and protect everything you've worked for

## **SPECIAL OPERATIONS TRAINING CENTER**

The Special Operations Training Center, owned and operated by the SOS Group, was developed to teach security personnel how to safely and effectively use the tools of their trade. We have paired the latest in defensive equipment with top-flight instructors in a controlled, technically advanced atmosphere.

SOTC is located in the Maryland country side and offers guests a variety of venues in which to test out, and get comfortable with, firearms, explosives and other defensive tools. On-site gun shops and shooting ranges make it easy to purchase and test firearms.

The SOTC was created to function as the training grounds for our Special Operations Training Academy, but it's big enough to handle groups of any size who want to live fire weapons or participate in one or two-day courses.

At the SOTC, practice is made perfect.
